### Do You Make a Profit In Buying, As Well As In Selling?

MANY men seem to think they can make money only by selling something—they don't seem to realize there's such a thing as making a profit in buying.

The shrewd buyer makes money just as surely as the shrewd seller.

When you buy lumber, go after the top market value—get the best lumber you can for your money—that's buying lumber at a profit.

The Best Value in Lumber in the Market Today, High Quality and Low Price Considered, is

### Southern Yellow Pine

"The Wood of Service"

The United States Government, in Bulletin No. 99 of the Agricultural Department, says of Southern Yellow Pine:

"It may be had in long pieces, free from serious defects, and possesses great strength and stiffness. In addition to that, it has enduring qualities that add much to its value."

### We Sell That Kind

Come in and figure with us on your building and repair work—you'll be surprised to learn how little high-grade Southern Yellow Pine will cost you. Now is the time.

## Pascola News.

Mrs. John Green of Greenfield, Ill., mother of Miss Harriett Green, a teacher in our public school, was here this week accompanied by little Miss Eileen Cole, daughter of T. R. Cole, and spent quite a visit with brother and father, returning home Wednesday morning.

Quite a number of our town folks spent Monday in Caruthersville and Hayti.

Clyde Martin was in Lathrop on business Monday.

A number of Portageville people motored to Pascola via Wardell, return home via Hayti, this week.

Several Pascola Democrats went to Cape Girardeau to hear William J. Bryan speak on the issues of the day, and returned home satisfied with having made the trip.

John Tant and the Letner boys were in Pascola Tuesday on business.

Mrs. McCutchen of Campbell passed through Pascola Wednesday on her way home from Wardell, where she had been on a visit to relatives.

Quite a number of Pascolites, including Miss Grace Opal Day, Miss Harriett Green, T. R. Cole, Clarence Pott, Gail Day, Mrs. Siler and Mrs. Green spent Sunday at Kirk sightseeing and inspecting the large drainage boats in that vicinity.

Mr. and Mrs. Geo. Mirick spent Wednesday in Caruthersville, shopping and visiting friends.

CASEY.

Get that art square at The Boston Store at Caruthersville for the spare room this winter. They are bargains at the price offered.

Quite a lot of cotton came to this market last Saturday, and the price was exceptionally good. Cashier T. A. McNail of the Bank of Hayti informed the Herald that the bank cashed over \$65,000.00 worth of cotton checks alone. He also further informed us there was very little demand for cotton borrowing.

## Lamm and Nepotism.

The Republican State platform adopted at Jefferson City, August 23, 1916, declares against nepotism, of elective officers taking care of their families in making appointments in their departments.

The honest, intelligent voters of this State, Republicans and Democrats, believe in consistency—that platforms should mean what they say.

Does this plank in the Republican platform represent the heart and conscience of the leaders of that party, including the nominee for Governor, Judge Lamm?

As a public official has Judge Lamm shown that he is in sympathy with that plank?

When Judge Lamm was elected to the Supreme Judgeship, he had certain patronage at his disposal. What did he do? What do the records say?

He had one appointment—did he seek out some deserving young Republican struggling for a start in life to tender him this political plum with a good salary attached?

Did he? The records show that he made it family affair and appointed his own son.

And that is not the whole story—he secured for another son a position in the State's employ.

Still Judge Lamm's interest in the Lamm exchequer does not end here. In order to "keep down" expenses, he actually lived in the Supreme Court building while he was on the bench.

This is the man who heads the Republican ticket on an anti-nepotism platform.

And then listen!

Ed Koehn, who is the Republican collector of St. Louis city, was one of Judge Lamm's chief boosters for the nomination. He is responsible, perhaps, more than any other one man for the judge's enormous majority in St. Louis, that wiped out the almost unanimous vote given John E. Sawyer in the country.

Mr. Ed Koehn, of course, enforces the anti-nepotism plank in the Republican platform. This he does sincerely he believes in the "principle"—Mr. Koehn's salary fees amount to about \$10,000 per annum. That's twice as much as the governor of the state receives. But he was not satisfied. He wanted more money flowing into the Koehn household, so he caused to be appointed six of his relatives to lucrative city positions. Adam E. Koehn was assigned to the fire department at \$1,200 a year; C. Koehn was given a position in the same department at a like salary; Geo. R. Koehn was made captain in the fire department, at a salary of \$1,560 a year; his father, Jete Koehn, is a watchman in the water department, gets \$720. In addition to relatives of his own name, his kinpeople of other surnames, twelve in number, are drawing \$10,000 a year more from the city treasury.

These are only two instances of many that could be given of how Republicans practice "anti-nepotism."

Is the voter expected to believe with these record facts in his possession that the anti-nepotism plank was written into the Republican State platform with any sincerity? It was designed to catch the votes of the unthinking, those not posted on Missouri political history.

Are the country Republican voters ready to turn over to the Lamms and Koehns all the State patronage?

If so, of course, they should vote the Lamm ticket.

## ARE YOU GUILTY?

A FARMER carrying an express package from a big mail-order house was accosted by a local dealer.

"Why didn't you buy that bill of goods from me? I could have saved you the express, and besides you would have been patronizing a home store, which helps pay the taxes and builds up this locality."

The farmer looked at the merchant a moment and then said: "Why don't you patronize your home paper and advertise? I read it and didn't know that you had the stuff I have here."

## Hughes and Lamm.

Hughes has but two planks, one the "Bloody Shirt," and the other one line sectional hatred. Candidate Hughes is fifty years behind the times. Those issues have long ago been buried, thank God.

Senator Reed is regarded as the greatest champion of labor interests in the United States Senate. The Missouri statesman's defense of Samuel Gompers, and his present activities in behalf of a thorough inquiry into the 8-hour railroad day by the Interstate Commerce Commission are appreciated by the working men of the country.

Republican newspapers announce that Mr. Hughes will use "new arguments" toward the close of the campaign. Too late.

The buried railroad strike is another "Wilson victim," along with Huerta.

In his Springfield speech Judge Lamm referred to the law as "a kindly nursing father." Where does the judge get the idea? We know all about the nursing mother, but from the nursing father may the good Lord deliver us.

Judge Lamm charged "That here had been reckless appropriations beyond the ability of the state to pay them." But he failed to tell the people that the Republicans in the State legislature voted for every one of these appropriations.

Judge Lamm says the land bank is a dangerous approach to mbecility.

Our Democratic State government costs less per capita than any other State government in the United States. The Republican city government of St. Louis costs more per capita than any other city government in the United States. These are the admitted facts. Do Missouri taxpayers want St. Louis city government at Jefferson City? Let them answer at the polls.

Eighty per cent of the enormous income of the City of St. Louis is frittered away in salaries. But 9 per cent of the income of the State government goes for salaries. These are the official figures. The Missouri state government is Democratic. The St. Louis city government is Republican. Voters of Missouri, make your choice.

The St. Louis Globe-Democrat, the recognized organ of the Republican party in this State, declares that "The passage of the eight-hour law is the most pusillanimous act in the history of the American Congress." More than ninety millions of Americans link otherwise.

Out of a total of 239 personal damage suits against corporations, Judge Henry Lamm voted for the corporation and against the plaintiff in exactly one hundred and forty-two cases, and voted against the corporation in only ninety-seven cases. This is the official record. It explains why the corporations are for Judge Lamm at the ratio of 142 to 97.

Judge Henry Lamm, the Republican nominee for governor, was teaching school in Pettis county at the time the Republican party began robbing the school fund. But Judge Lamm said nothing then. His great interest in the school children is of recent growth.

In his present term of office state Auditor Gordon has collected just 50 per cent more money than his Republican predecessor collected in the same length of time.

The boys in the country will not forget that farm products of all kinds reached their highest market value under a Democratic administration.

The Boston Store respectfully invites their friends to stop with them when in Caruthersville.

### WHAT MR. TAFT THINKS OF PRESIDENT WILSON

This is no time to point out mistakes of the past. This is no time, by attacks upon the General in command, to give the idea that our commander has not a united people behind him.

We are fortunate in having kept out of the present European War and we ought to support the Administration in keeping us out. If we had a jingo in the White House this country would now be at war with Germany.

He (Wilson) is not a Democrat President. He is our President. He is first an American, the same as we are. We must all be Americans first.

### Deafness Cannot Be Cured

By local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever, and must out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by Catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.
